# **THE SALE WHERE Your DOLLARS WILL BUY MORE**

"The Sale of Satisfied Buyers" has existed for a number of years, dating back to days before the great depression. It has come through good times and bad, sometimes with as many as three sales a year. Until three years ago it had been held at least once a year with just one exception. Now after a three year lay off breeders in the area have banded together to get the sale moving again. They know the value of this sale to the commercial people of their region, They are aware of the importance of this event in the overall picture of the Shorthorn future. Numerous Purebred herds have sprung from this sale. One example is Darrel Steck, Wataga, Ill., who as a 4-H boy purchased his first Shorthorn in this sale, has since built a herd of more than 100 head and is consigning to the event this year.

The cattle in the sale this year are in tradition of the past. Sound structurally, in good breeding condition, and backed by the most prepotent sires of the breed. The cows are all selling with calves at side or well along in calf. A large number of bred heifers are also selling. The bulls are well grown and ready for service.

If you are a young person just starting out, a commercial cattleman looking for your next bull, a purebred breeder wanting to increase your herd or add a few good ones, then I believe you should be at "The Sale of Satisfied Buyers" on March 6. This sale got its name from its Satisfied Customers. I look forward to seeing you sale day.

*Gene McDonald*

These deep bodied brood cows are a part of the H. L. Wernicke & Sons herd, Lena, Illinois. This well known firm has consigned to nearly every "Sale of Satisfied Buyers" since 1933.

## ILLINOIS JUNIORS TO ORGANIZE

The Illinois Junior Shorthorn Ass'n will hold an organizational meeting at 1:00 p.m. February 28 in the Sinorak, Bloomington, Illinois. John Land and George Inness are senior advisors. Sherman Berg, junior activities director of the American Shorthorn Ass'n, will be the speaker.

## WHY BUY SHORTHORNS?

The answer is obvious . . . **they will put more profit into your cattle program.** Shorthorns are world renowned as the **GREAT IMPROVER.** No breed will infuse extra quality into your operation so quickly. Look at these results . . .

- Louisiana State University tests show Shorthorn crosses with Angus and Herefords are superior to the Angus-Hereford cross in weaning weight, rate of gain, and carcass grade.

- Shorthorns have topped the Kentucky Performance Tests for six straight years.

- A Quebec Department of Agriculture study proved that Shorthorns mature earlier and produce a higher carcass grade than blacks and White-faces.

The trademark of the Shorthorn cow is that husky calf at her side. Her superior milking ability gives that calf a faster start and at weaning time there are more marketable pounds of quality beef.
